

Foundation Scholarship Award Improvement Plan

Spring Semester, 2009

During the Spring, 2009, semester, the following steps will be taken to improve the process:

- **Supply Scholarship Applications to Recruiters and Admissions Staff** at the beginning of the recruiting season. This will allow for broader dissemination of scholarship applications.
- **Develop guidelines for essay topic** or provide a specific topic. Since high school grades are inflated the essay is an important factor in selecting recipients.
- **Utilize a 'point' system** when evaluating scholarship applications similar to the system currently in place for the Frances Wood Wilson Foundation Scholarship award process. (See attached.)
- **Provide a Recommendation Form** similar to the one used in the Early Childhood Education Admission process
